

GUIDANCE CENTRAL

Student Achievement Starts Here

High School

The essential tools to help students improve test performance and create effective, personalized education and career plans.

Guidance Central...

- Raises student scores with customized testGEAR curriculum
- Provides data-driven instruction that initiates remediation strategies
- Improves accountability with comprehensive reporting tools
- Saves you time to reach more students with a self-guided format
- Encourages parental involvement by extending your programs into the home
- Adds real-world context to student learning with Choices Explorer
- Makes student planning more effective with Choices Planner
- Supports teachers with ongoing training, resources and activity materials

"We have had very positive results. It is a great program and we've used it with...students in a variety of after-school, weekend and summer programs. (testGEAR) is helping with academic success, technology prowess and college awareness."

- Bill Lutz

Educational Grants Director

Achieve Success with testGEAR Test Prep

Give students the confidence they need to meet challenging standards of college entrance and high school exit exams. Customized curriculum is provided based on a diagnostic that identifies each student's strengths and weaknesses. Targeted learning modules and practice tests empower students with the skills they need to walk into the exam confident and well-prepared.

Build Powerful Plans with Choices Planner

Help students plan better by effortlessly comparing, connecting and choosing from a vast network of work and learning options to compose meaningful education and career plans. Insightful... assessments and surveys identify skills and increase self-awareness. Informative school, program and career reports show school-to-major-to-career connections, and can be directly compared to a student's needs. The dynamic portfolio provides a common link to Choices Explorer with user storage available any time, anywhere.

Explore More Options with Choices Explorer

Students focus on their future when they can see themselves in the big picture. Effortlessly bring real-world context into classroom learning, making the school experience more relevant in every student's life. Motivate students to academic success with contextualized instruction.

Data-Driven Instruction and More...

Educators and administrators get the tools to evaluate product usage, report your program's successes and make instruction and counseling decisions based on real data. Sort and select users for effective interventions, allowing you to easily relate and respond to their interests.
