ALIGNED
TO 2005
SAT® & PSAT

testGEAR's Test Prep Course...

- Broadens access to every student in a cost-effective way
- Raises students' scores with an individualized learning system
- Provides data-driven instruction that initiates remediation strategies
- Supports teachers with ongoing training, educational resources and activity materials
- Helps schools track and evaluate student performance
- Offers relevant content aligned to state standards
- Encourages parental involvement with reports and home access

“(testGEAR) allows our GEAR UP students to see and feel success. It helps them identify particular areas they need to work on as well. They are coming on their own time - this is an important thing for the kids.”

-Bill Lutz
Educational Grants Director
AIM Institute

“The (testGear) program opened doors of learning for students who did not believe in their ability to be successful (and) diagnosed areas of student deficiency unbeknownst to teachers and counselors. I found the (testGear) program motivated students to challenge themselves at their own pace (and) improved students' abilities... that generated better scores for students on the SAT® and ACT™ tests.”

-Carolyn Darwish
Career Center Specialist
Cleveland & Garfield High School, Seattle School District

For Extremely Prepared Students

Progress Beyond the Standards

testGEAR gives students the confidence they need to meet the challenging standards of high-stakes exams. This online program provides customized lesson plans based on each student's strengths and weaknesses. Targeted learning modules and practice tests empower students with the skills they need to achieve success beyond the standards.

Powerful Insight

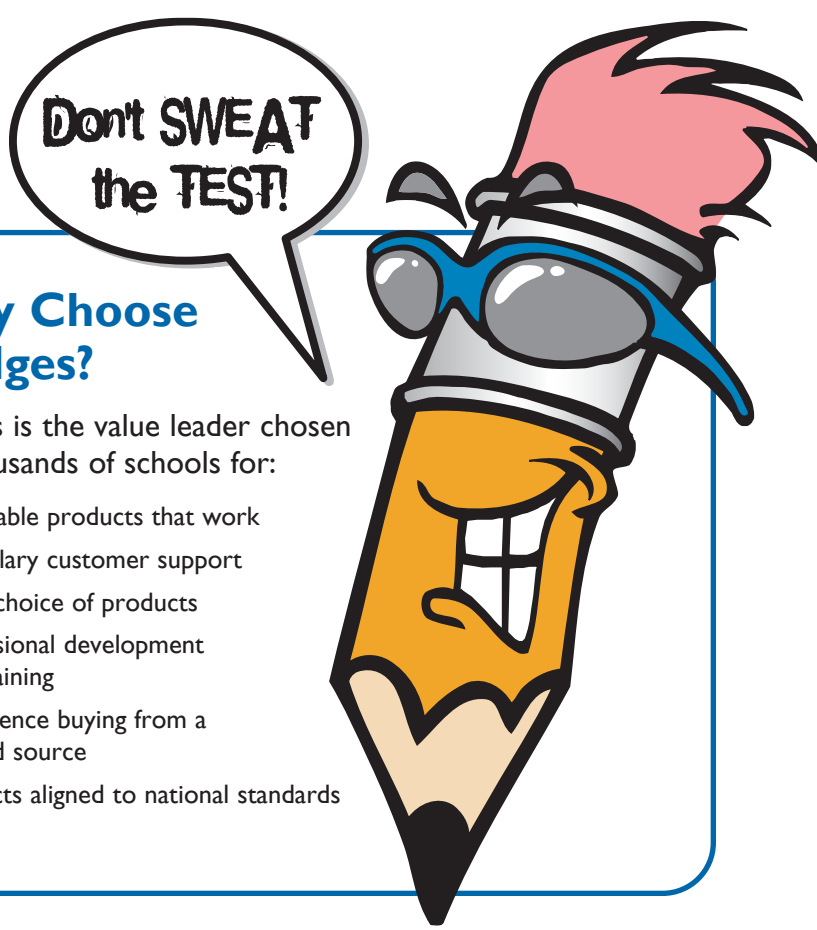

Gain valuable insight into the strengths and weaknesses of each student with the BrainScan individual diagnostic test. BrainScan combines self-assessment and objective assessment questions in an engaging manner designed for ease of completion. Module results activate customized lesson plans for each student.

Individualized Curriculum

SMART Curriculum is an individualized course based on BrainScan performance results. It offers a complete array of self-assessment and test formats and self-paced tutorials, as well as effective test-taking strategies. As a result of this intensive test practice, students will walk into the exam confident and well-prepared.

Data-Driven Instruction

TestSCOPE is a dynamic reporting system that assists teachers and administrators with the assessment of student performance. The reports give detailed access to student activity and indicate where your students need to improve. TestSCOPE provides ultimate reporting flexibility with nine easy-to-use reports, enabling teachers to identify specific areas that require more targeted instruction.
