Our career and education solutions for high schools

have been specially designed to prepare students for successful transition to post-secondary schools and beyond. Our engaging, ready-to-implement and easy-to-use products have been proven successful with counselors, teachers, vocational directors, tech prep coordinators, and administrators in high schools throughout the country for over 25 years.

College and Career Planning

Engage your students about their future and help them create personalized plans to realize their goals.

Assessments and Inventories

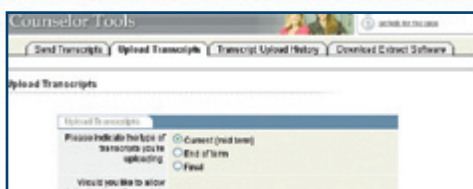

Learn more about yourself and your students with personality, learning style, and ability profiles.

Online Test Preparation

Improve student test performance on crucial state exit exams and college entrance exams.

Xap Transcript Exchange

Request, send, receive, track, and store academic transcripts electronically.

Funding Sources

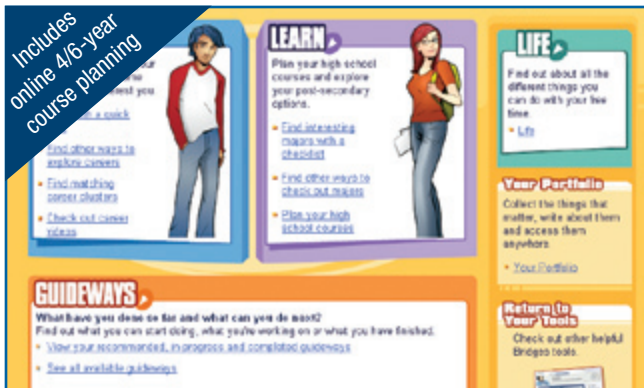

Our industry-leading products align with numerous state and federal legislation, and may qualify for purchase with a wide variety of funds. Such funds may include:

- American Recovery and Reinvestment Act of 2009
- Carl D. Perkins Career and Technical Education
- GEAR UP/TRIO
- Title I-A (School Improvement)
- 21st Century Community Learning Centers
- Title II, Part D (State and Local Technology Grants)
- Title V-A (Innovative Programs)
- Individuals With Disabilities Education Act (IDEA)
- Elementary/Secondary School Counseling Fund
- State-Based Funds
- Lender/Guarantor (student loan organizations)
- NCLB (Enhancing Education Through Technology)

College and Career Planning

Create the motivational foundation for more meaningful plans for high school and beyond

- Expand self-awareness and broaden career horizons by connecting students to original content and more non-traditional career options, like no other product available.
- Engage students with special interactive features, allowing them to communicate with experts, ask for advice, and request new career or program articles.
- Inspire students to pursue more rigorous courses with thousands of activities that tie academics to occupational pursuits and the Career Clusters.
- Enable a smooth transition from exploring to planning with an online portfolio that automatically saves all work completed in Choices Explorer and Choices Planner (for sites with both products).
- Gain valuable insight on student planning progress with usage and outcome-based accountability reporting tools.
- Include more students, in support of the Americans with Disabilities Act (ADA), by complying with the Rehabilitation Act, Section 508.

Build personalized plans through comparing, connecting and choosing career and education options

- Extend your student reach with 24/7 online access in English and **Spanish**.
- Support confident career choices with validated assessments that connect students to their best career and education options.
- Save time with self-directed planning tools that are effectively integrated with O*NET data, Career Clusters and Pathways, and U.S. Department of Labor SCANS.
- Enable lifelong planning with personal online portfolios that automatically save and store students' activities and plans.
- Quickly make data-driven decisions with accountability tools that track student plans and report on their success.
- Give greater access to visually-impaired students through screen reader compatible features and text.
- Include more students, in support of the Americans with Disabilities Act (ADA), by complying with the Rehabilitation Act, Section 508

Assessments and Inventories

Discover new insights about aptitudes and related occupations

- Empower students to discover their personal aptitudes in a computer-based assessment, adapted from the latest O*NET Ability Profiler.
- Understand the relevance between aptitude scores and the world of work based on the U.S. Department of Labor's job aptitude requirements.
- Gain valuable insight with a thorough evaluation of a student's abilities in arithmetic reasoning, vocabulary, three-dimensional space, computation, name comparison, and object matching.
- Save time with easy to use, on-screen directions and test-taking hints that allow students to work independently.
- Quickly identify a student's potential for specific career and education options by highlighting strengths, occupational matches, and areas for additional training.

Available only as an add-on to Choices Planner.

Maximize each student's full learning potential

- Increase achievement by empowering students to identify and resolve their learning and productivity issues.
- Improve study habits, attitudes and behavior with instructional and environmental alternatives that complement students' learning styles in 22 different areas.
- Boost the self-esteem of underachieving students by using individual learning styles to get studies back on track.
- Identify proven strategies for teacher/student interaction.
- Involve parents with a summary of their children's learning preferences.

Improve students' plans with the proven science of personality typing

- Deepen counselors' understanding of their students with valuable tips on what makes students tick, based on their unique personality types.
- Enhance students' self-awareness about their strengths and potential blind spots.
- Discover students' preferences in communication, learning styles, social situations and relationship strategies.
- Ensure all students are on the right path by connecting results to their best college majors and careers.
- Strengthen student/parent interactions by sharing online personality type reports with parents.

Online Test Preparation

Raise student test scores with proven methods

- Broaden students' access to test preparation tools in a cost-effective way.
- Raise student achievement with an individualized curriculum that strengthens content skills and introduces test-taking strategies.
- Initiate remediation with more targeted, data-driven instruction for underachieving students.
- Easily track and evaluate students' performance with accountability reporting tools.

testGEAR[®] for the ACT[®], SAT[®] and PSAT

Give students the practice they need to reach their full potential on college entrance exams. This online learning system adjusts to students' needs by targeting their weaknesses and helping them build the necessary skills to succeed.

testGEAR[®] for High Schools & State Exit Exams

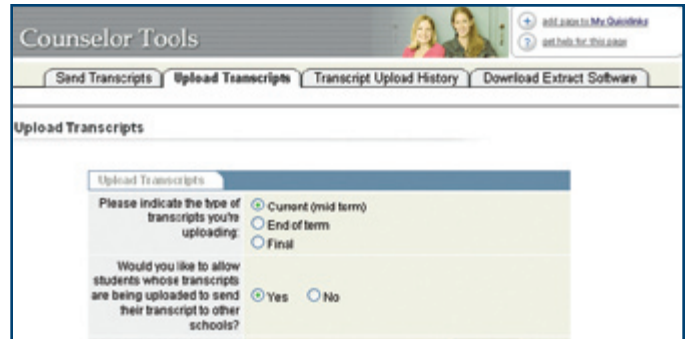

testGEAR's online courses for math, English language arts (ELA), science and social studies provide learning modules that target skill-deficiencies and assign practice tests to build student confidence with acquired skills.

"I love the ease of use. It is great having so much vital information at your fingertips whether at home or in school, to use for yourself or your students."

- Mark Danaher, Career Counselor, Manchester Sr. High School, CT

Xap Transcript Exchange[™]

Request, process, and receive transcripts quickly and easily

- Trust a secure, reliable, and cost-effective end-to-end solution to deliver and receive electronic transcripts.
- Improve efficiency by eliminating redundant tasks such as filing paper, and save as much as 90% on paper costs.
- Simplify processing between participating schools in or out of state.
- Enable students to send their transcripts quickly and accurately to their chosen schools at any time, anywhere.

For States, Districts & Consortia Guidance Central

- Easily deliver customized student portfolios
- Offer state or district-specific product configuration and implementation tools
- Enable career-focused course planning
- Track student progress at a state or district level
