Technical Profile

Do What You Are: Self Discovery Assessment

For successful access to our installed software or online resources and services, review this document to ensure your site is prepared with the proper technical components. Prior to purchasing, please have your network technician or other local technical contact review this document.

- Firewall, proxy servers, filtering software and anti-virus software should be configured to allow access to the "bridges.com" and "*humanesources.com*" domain
- Do What You Are uses HTTP over port 80 (IP 24.248.88.26) and HTTPS over port 443 (IP 24.248.88.25)
- Javascript and session cookies should be enabled (this is the default setting for most browsers)
- Filtering and anti-virus software needs to be configured to allow pop-ups in the "bridges.com" and *"humanesources.com"* domain

System Requirements:

Windows

- Windows 98 or higher
- Internet Explorer -- version 5.5 SP2 or higher
- Netscape -- version 4.76 or higher
- Internet connection through 56k modem, ISDN or other high-speed network connection

Macintosh

- For Mac OS 8.6 or higher
- Internet Explorer -- version 5.1.7 or higher
- Netscape -- version 4.7 or higher
- Internet connection through 56k modem, ISDN or other high-speed network connection
