Test Preparation

testGEAR

Graduation requirements and college admissions standards get tougher and more competitive every year. Students face growing pressure to improve

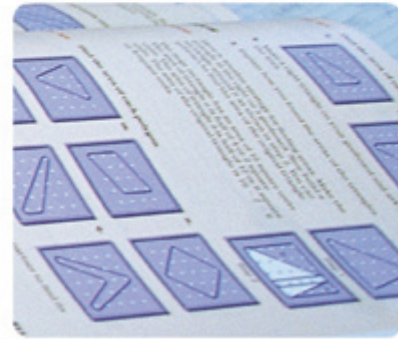

their academic performance and achieve higher test scores. testGEAR's mission is to bring high-quality standardized test prep to all students by providing powerful, web-based tutorial programs that are universally accessible and affordable. We are committed to putting test success within the reach of anyone who needs it.

Aligned to state standards, testGEAR online test prep raises

students' scores with over 50 hours of individualized curriculum.

Accountability reporting tools help schools track and evaluate students' performance, allowing schools to provide data-driven instruction to initiate remediation strategies.

State & High School Exams

State exit exams are becoming more influential than ever before. With the enforcement of No Child Left Behind, 65% of all public school students currently live in states with exit exam requirements. testGEAR makes it easy for schools to support student motivation and achievement on exit exams,

without obligating educators to teach to the test.

Engaging and easy to implement into existing curriculum, testGEAR test prep courses for Math, English Language Arts, Science and Social Studies prepare students with the content skills they need to achieve on high stakes exit exams.

TestSCOPE accountability reporting tools provide valuable insight at the classroom, school

and district levels, making it easier than ever before for educators to identify at-risk students early on and provide more effective remediation with targeted instruction.

With testGEAR, you can rest assured that every student has the skills they need to meet and exceed state standards and graduate on time.

testGEAR for Social Studies

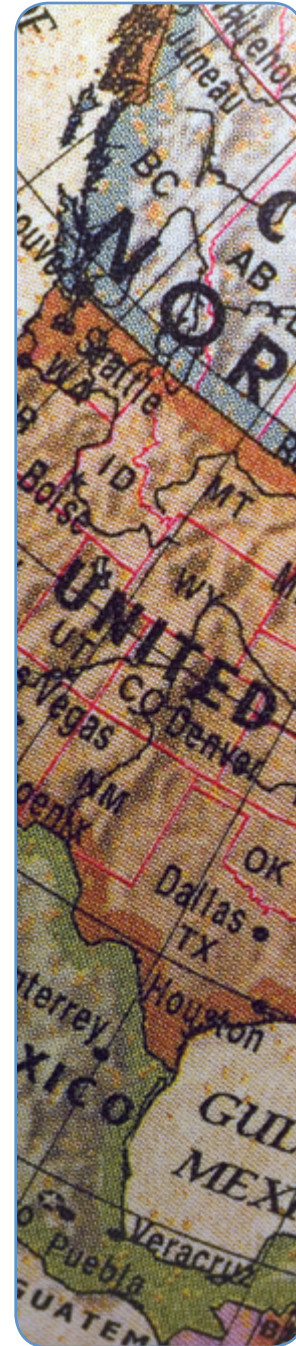

Did you know that by 2012, at least 14 states will have included a social studies component in their state exit exams? Social studies provides students the opportunity to apply real-life context to skills they've learned in math and English language arts. Many educators see great importance in evaluating how students use logic and reasoning to apply these basic skills in another subject area.

With No Child Left Behind's emphasis on math and English, some educators are concerned that there is little time available for teaching social studies. Fortunately, the self-directed online format of testGEAR for Social Studies saves you class time, and ensures students are prepared to meet state standards for this valuable curriculum component.

Give Students the Competitive Advantage

To fully prepare students, testGEAR for Social Studies includes:

- Optional 20-minute diagnostic test
- 7 Practorial lessons covering 22 test-taking strategies
- 18 MicroCourse lessons covering 66 learning skills
- 9 Practice Tests to build confidence
- 2 Mini Tests
- Fun, engaging and relevant content
- Explanatory feedback with every question
